Joe Giglio

New Nationalist Party Candidate
for the 9th & 10th districts

Partit Nazzjonalista

TOGETHER WE CAN BUILD A BETTER FUTURE FOR US ALL.

Malta deserves a better future. We all deserve better.

That is why I accepted the Nationalist Party's invitation to contest the next general election on the 9th & 10th districts. In the course of practising as a lawyer for almost 30 years, I have met several people from different corners of our country. This experience provides a true pulse of the values you believe in and your aspirations. **As a new candidate I feel that we must approach politics in a totally different way from what we did in the past.**

Hence **Team Giglio**, because this is a project I would like to carry out in your name and together with you.

TOGETHER WE CAN BUILD A NEW VISION FOR OUR COUNTRY.

Politics is a tool **with which we can do a lot of good** for our families. I would like to see politics built on mutual respect, even when we don't share the same opinion. This is why I believe in politics that does away with confrontation.

I wish to create **a space where new ideas are conceived**, for example ideas for wealth creation and a fair distribution of wealth.

I am committing myself to see that our country's **economic success** is no longer measured by how much the Government earns and spends, but by different and new markers.

I want to see **our children receiving the best possible education** so that their future brims with opportunities. I do not believe that an education built only on exam outcomes is ideal.

I also believe in politics that **protects the environment and open spaces**. I wish to see an economy built on sustainable development that respects our natural, cultural, social and historical heritage.

I wish to live in a Malta where your contacts or origins are not important, but where your skill and ability to progress are, and that at last **meritocracy and equality** will truly reign.

I want to be certain that each and every one of us is given an **impeccable and dignified health service**.

I wish to live in a country where workers, professionals and security services are given their deserved respect, **appropriate salaries and decent working conditions** that reflect the sacrifices they make. Workers in the business sector, from small to big businesses, should be helped in creating more work for all.

This is some of what I would like to carry out through my political work.

I invite you to join me, so that with your support, together, we will build a better future for us all.

I wish you all a happy Christmas, and a peaceful and joyful new year.
